# CLASSIC

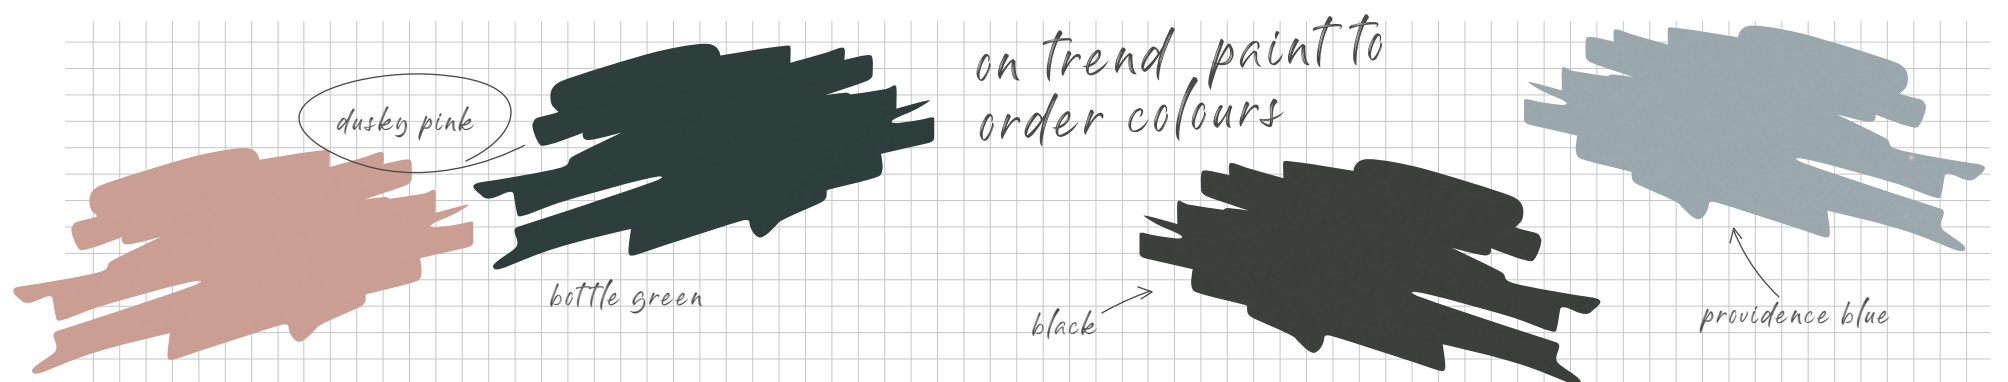

Our Classic collection of versatile designs provide a range of truly striking kitchens - everything from simple shaker designs to timeless paint to order in-frame styles. These kitchens have been crafted for those who prefer the 'classical' approach to kitchen style.

*it's all in  
the detail*

# YOUR CLASSIC STYLE

This range of kitchens excudes warmth and character to form a wonderful welcoming feel. From classic smooth shaker doors in subtle tones, to our painted ash veneered options available in several on-trend colours; you can create a country cottage style or a more sophisticated modern kitchen design.

All of our kitchen ranges can be styled to look more traditional or to take a modern twist on a classic design. The use of feature cabinets, cornice and pelmet above and below wall cabinets, the handle choice and

the work surface make a big impact on the overall style.

The choice of colour is also influential with a traditional look being created by using colours such as Atlantic Green, Sage and Stone, complemented with an Oak work surface and aged brass handles. For a more modern look use Grey, White and deep Blue tones and select a chrome or matt black handle and contemporary thin work surface.

To ensure the continuous development and improvement of our products, we reserve the right to make changes to the colour, design and descriptions or methods of manufacture of our furniture. Such changes may be made without prior notice and without incurring liability. In many of our products we use wood, a natural living material which will reflect a numerous variety of grains and textures and so variances must be allowed for. Styles that feature timber, PVC, laminates, painted and melamine finishes may incur a slight colour change over the years.

Limiting our Environmental Impact

Our furniture has full FSC® certification assuring you that the wood used comes from responsibly managed forests with a full chain of custody. We've gained the BS EN ISO 14001:2004 quality standard which independently endorses our ongoing operational activities to limit our impact on the environment. Symphony is a member of the recycled packaging organisation, Valpack. This membership has been achieved by minimising packaging without compromising protection, and initiatives include utilising protective reuseable blankets on deliveries where possible.

We take our environmental responsibilities seriously and built our South Yorkshire based manufacturing and Head Office facilities to BREEAM standards, including a biomass boiler that provides all the heating.

Symphony's iconic fleet of over 150 burgundy lorries is amongst the most fuel efficient on Britain's roads, due to the inclusion of Bluetec Euro 6 Mercedes Actros engines.
